ALDAN MAULANA FAJRI

Quality Assurance Engineer

Indonesia | aldanmaulanaf@gmail.com | 0823.3413.1788 | Linkedin | Github

SUMMARY

I am a detail-oriented Quality Assurance Engineer with an Associate's Degree in Informatics Engineering from Sebelas Maret University and professional software testing training from Alterra Academy. Throughout my career, including roles at VNT Networks, Visi Prima Nusantara, and Sekawan Media, I have developed extensive expertise in both manual and automated testing for web and API platforms. My technical proficiency spans a diverse stack including Java, JavaScript, and PHP, where I utilize frameworks such as Selenium, REST-Assured, and Cypress to validate complex systems. I am highly skilled in implementing BDD concepts with Cucumber and Serenity BDD to ensure comprehensive test reporting and seamless alignment with business requirements. By collaborating closely with cross-functional teams and leveraging tools like Figma, Postman, and JIRA, I am dedicated to delivering high-quality, user-centric software solutions that meet the highest industry standards.

TECHNICAL SKILLS

- Languages : Java, HTML, CSS, PHP, Gherkin, JavaScript.
- Technologies : Bootstrap, Codeigniter, Selenium, REST-assured, Cucumber, Serenity BDD, Git/Github, Cypress, Notion, JIRA.
- Other : IoT, SDLC, Agile Methodology, Advance Problem Solving.

PROJECTS

- **Velodiva Music Player**
  Velodiva is Indonesia's first officially licensed commercial music player platform providing professional background music solutions for business environments. In this role, I managed the end-to-end quality assurance process by implementing automated testing using Cypress to validate critical playback flows and licensing modules. I collaborated closely with cross-functional teams, including Developers, UI/UX Designers, and Product Managers, to ensure the platform's stability and the seamless integration of licensed content, maintaining the high standards required for commercial deployment.

- **Portal Kerja HRMS**
  Portal Kerja HRMS is a digital HR platform that provides an integrated solution for companies to manage human resources efficiently. As a Manual QA for an HRMS platform, I ensured the integrity of key modules like employee data, attendance, and leave management. My focused testing on data validation and HR workflows led to the identification of critical issues, directly enhancing the security of sensitive employee data and streamlining company HR operations.

- **Portal Sekolah**
  Portal Sekolah is an integrated digital platform that combines a learning management system (LMS) and a school administration system (SMS) into a single application. My primary responsibility was the **end-to-end testing** of the New Student Admission (SPMB) and Counseling features. My role involved systematically designing **test cases**, executing **functional tests**, and meticulously **documenting bugs**. Through this detailed process, I successfully identified critical issues, which proved instrumental in ensuring the stability and smooth launch of these key features upon release.

WORK EXPERIENCE

VNT Network (PT Jaringan VNT Indonesia) **December 2025 – February 2026**
QA Engineer Jakarta, Indonesia

- Perform manual and automated testing using Cypress to validate critical business flows.
- Collaborate closely with PM, BA, SA, UI/UX Designers, and Developers to deliver high-quality features.
- Contribute to improving QA processes, documentation, and cross-team communication to enhance product quality.

Visi Prima Nusantara **April 2024 – September 2025**
QA Engineer Jakarta, Indonesia

- Testing web & mobile devices to ensure their configuration work efficiency.
- Providing feedback to development teams on technical, troubleshooting, or operational issues.
- Working with product managers, and development teams to test and optimize mobile products.

SEKAWAN MEDIA **October 2023 – January 2024**
QA Engineer Intern Malang, Indonesia

- Create Script for Automation Testing in Cypress.
- Create and Review Test Cases for the Manual and Automation Testing.

EDUCATION

BAKTI INDONESIA UNIVERSITY **February 2026 - November 2026**
Bachelor's degree, Informatics Engineering Banyuwangi, Indonesia

- Direct Entry / Degree Transfer Program (from Associate Degree / D3 to Bachelor's Degree in Informatics Engineering).

ALTERRA ACADEMY **December 2022 - April 2023**
Immersive Program, Quality Engineering Malang, Indonesia

- Covered comprehensive QA training including SDLC, Agile testing, manual testing with TestRail, automated testing using Selenium and REST-Assured (Serenity BDD), JMeter, and SQL.

SEBELAS MARET UNIVERSITY **September 2019 – July 2022**
Associate's degree, Informatics Engineering – GPA 3.77 Surakarta, Indonesia

- Final Project: Design and implementation of Virtual Control in Smart Room based on Virtual Reality (VR) and Internet of Thing (IoT).
- 6/6 semesters, 3.77/4.0 GPA cumulative.

CERTIFICATIONS

- Certificate of Course Completion Introduction to IoT (Issued by Cisco October 2020).
- Basic Programming Certificate (Issued by BNSP June 2022).

ACHIEVEMENT

- 3rd Place Winner Apps Development Smart IT Festival Quantum Sebelas Maret University (Issued by E-Mailkomp 2021).
